

## Statement: TCR Plastics & REACH

*Regulation (EC) No 1907/2006 of the European Parliament and the Council (commonly known as **REACH**, for **R**egistration, **E**valuation, **A**uthorization of **C**hemicals) came into effect on 01 June 2007. It aims to ensure a high level of protection to human health and the environment as well as free movement of substances, on their own, in preparations and in articles, while enhancing competitiveness and innovation. It should also promote the development of alternative methods for the assessment of the hazards of substances.*

TCR Plastics distributes polymers, produced by European and non-European producers. As REACH currently stands, all polymers are exempt from registration. However, there are other obligations imposed by REACH on our company and our suppliers.

It is a great pleasure for us to inform you that all our suppliers, or their appointed "Only Representatives" declared that they fulfill all their responsibility with the current requirements of REACH.

We hereby certify that our suppliers or their OR declared that the products supplied to TCR Plastics do not contain more than 0.1% (w/w) of any substance of very high concern listed in the ECHA candidate list in accordance with Article 33 of the Reach Regulation, as updated January 12th, 2017.

However, since we do not perform specific tests to verify the potential presence of SVHC in our Product(s), we cannot guarantee that there is no trace amount of some of SVHC, as impurity or otherwise, in our Product(s).

If you have further questions, please do not hesitate to contact me.

We hope the above information will be helpful and adequate for you.

Yours sincerely,

Albert Kleij  
TCR Plastics
